"PRODUCTOGRAPH" IS ALMOST HUMAN.

(American Machinist.)

The Productograph, is a recording machine, which, when attached to the machines in the factory, makes each machine self-record its every movement, action and production per stroke or revolution and makes a complete and permanent record in the office of the plant.

This record comprises the exact starting time of the machines, the hour of each stoppage and the actual duration of each stop; also the speeds and their changes where such are possible and finally the output of the machine for the day.

The recording device is placed in the manager's or superintendent's office, while wires run from it to the switches placed on the machines in the factory. Every time one or more operations on the machines are completed, a contact is made by the switch, and a line is drawn on the chart.

There are four sizes of Productographs, 2, 5, 10 and 20 needles. The 5-needle recording for five machines or less, the 10 for 10 machines or less, while the 20-needle records for 20 machines or less.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.
